

Fireproof & Waterproof Data Box

Fireproof (up to 1100°C) and Waterproof (100 meters)

► Introduction

This Fireproof Black Box connects to MDVR, withstand a fire burning at 1100 °C for 15 minutes and water under 100 meters. Vehicle crashes sometimes result in fires. With this fire resistant design, the data could be recorded safely in the fire or flood, to help crash investigation.

► Features

- Fireproof (up to 1100°C) and Waterproof (under 100 meters)
- Reliable industrial grade EMMC memory core
- With high speed 4PIN USB port
- To connect with PC, DVR
- Data integrity after accident or disaster

► Specification

Power	Input:5V±5%
Interface	4PIN USB
Storage	32G / 64G / 128G optional
Refractoriness	1100℃ for 15min test
	260℃ for 120min test
Waterproof	100 meters under water
	10 ATM pressure
Static Extrusion Force	10kN 5min (all axes)
Dimensions	120x102x47mm
Weight	0.75kg
